Hi Peter, R4 in Atlanta is set up a little differently than Region 3 in Philadelphia so there is more than one person that does Clean Air Act Section 129 work. Here are the names of two people in R4. If they aren't the ones that directly handle your request they should be able to connect you to the right person.

**Subject:** Your counterpart in EPA Atlanta?

Mike,

Thank you again for the letter ruling last month about our gasification system when we are drying and processing municipal sewage sludge.

Who is your counterpart at EPA Region 3 in Atlanta? The reason I ask is that we have begun operating our waste gasification system at the public landfill in Cordele, Georgia. At this facility, we are processing food waste and cardboard.

Officials at the Wilmington, Pittsburgh, and Detroit WWTPs, as well as Calgon Carbon, want us to demonstrate that we can dry and process sewage sludge, and our facility in Cordele, Georgia would be the most appropriate location. I assume that even for a demonstration run, it would help if we had a letter ruling from Region 4 in Atlanta. I have spoken with the Manager of the WWTP in Cordele, and she is willing to provide us with a truckload of sludge at no cost, since they are hauling their sewage sludge to the same landfill.

Regards,

Peter Thomas
